To Whom It May Concern:

We purchased school management software from Orbund this past year. We have been very impressed with their professionalism. They have been very conscientious about giving us the support we need in running our software.

The school management software has taken Al-Hamra Academy closer to becoming fully automated. The flexibility of the software has allowed our teachers to process report cards from their homes. Ms. Eman, one of our middle school teachers says “a lifesaver....now I do not have to wait for other teachers to give me their grades”.

We would highly recommend this software product and the support we have received to other schools. Please call us if we can provide you with any further information.

Sincerely,

Sadia Khan  
Principal
