We switched to Orbund Systems last year and are extremely pleased with the program. The system is easy to use and is compatible for all school grades. My teachers appreciate all of the features that are available and use the system to communicate with students and parents on a regular basis. The system has made our report card processing simple and easy, something we had never experienced before. Without a doubt, the best feature is their customer service. The staff is friendly, knowledgeable and easily accessible. Orbund has saved us time and money and I highly recommend them to any school looking to upgrade their systems. Simply put, Orbund Systems is the best.
