To Whom It May Concern

Testimonial: Orbund - *Online School Systems*

Perdana College has been using Orbund's varsity system for a year now, and we have received very positive feedback from both our students and our staff who have found it to be very helpful. We have referred to it as the Perdana's EASy system as it is user-friendly and is easily accessible anywhere and anytime with an Internet connection.

Both students and parents have instant access to a variety of up-to-date information, including grades, progress reports, attendance record, homework/assignments, news, announcements, fee payment schedule, and so forth.

Individual students and lecturer can send messages to each other outside of college hours.

Orbund has provided us with excellent service both before and after the deployment of our system. We find them to be quick in responding to our requests for help or changes to the system.

I highly recommend Orbund and its services.
